

**PUBLIC NOTICE
CITY OF CARRIZO SPRINGS**

TO ALL RESIDENTS OF CARRIZO SPRINGS:

On Thursday, February 16, 2017 the City called for a voluntary conservation of water due to some electricity work done by CANFER (Electricity Company) in HWY 85. This has come about because of the need by CANFER to switch some electricity systems.

The project will last about 2-3 hours as a result of this project our pump station will be offline and possible low water pressure on some areas of the city. Please conserve as much water as possible.

Any questions please contact City Hall 830-876-2476

For your understanding, thank you.
